VITICULTURAL INFO:

In the months of April and May we had an unusual amount of rainfall that had a detrimental effect on the flowering and created excellent conditions for mildew to appear. As a result of this the yields were strongly reduced. However due to the good weather we had in June and July maturity progressed very well. We had rain in the Pinhão Valley on the 22nd and 24th August and then again on the 11th September. After a long, hot and dry summer this was ideal and had a big impact on the quality of the 2000 wines. We started harvesting by hand for Port on the 16th September and by the 26th September we had picked all the grapes for Port.

WINEMAKER COMMENTS:

Our 2000 Colheita results from a blend of wines, whose grapes came from the old vines, vinified in stone lagares and in our stainless-steel fermentation vats. In the lagares we have achieved the rusticity and an excellent structure and have complemented this with the aromatic finesse attained in the stainless steel vats. Whilst they age, their young, fruity and fresh aromas develop through oxidation to create a bouquet marked by the aroma of dried fruit, toasting, wood and spices. The wines also acquire an increased smoothness and their bouquet becomes more harmonious and complex.
